

Driving Your Career

DESCRIPTION

Driving Your Career empowers individuals to drive their own careers within your organization. Many companies today are challenged with engaging and retaining their best talent. This program helps you to keep your valued employees by enabling them to create their best work experiences in your company.

THE EXPERIENCE

Participants will learn to articulate their unique value to the organization, based upon their strengths, interests and values. In addition, they will learn how to engage in effective career conversations with their managers.

This program helps organizations build a culture of personal ownership and accountability for career management, in an accessible and motivating way. We limit class size so that each participant is able to fully leverage what this class offers.

OBJECTIVES

- Leverage a career framework to determine your career stage and next steps
- Increase your self-awareness through having a greater understanding of your strengths, values and interests
- Define and learn to articulate your value to the organization by developing your unique value proposition
- Learn how to have meaningful career conversations with your manager

ABOUT ALLIANCE LEADERSHIP

For more than ten years, Alliance Leadership has been meeting the unique needs of the changing corporate environment and the challenges facing the modern workforce. Alliance helps companies successfully motivate, engage, develop, and retain leaders across the organization – from senior leaders to first-time managers – through coaching and leadership development programs that resonate powerfully with today's worker.

Our programs are delivered by facilitators who are highly talented coaches who apply a true coach-approach to training and learning, leveraging decades of practical experience in the business world.

Alliance Leadership has developed a global network of highly skilled and experienced facilitators. We are able to provide facilitation in 44 countries and 14 languages through our global facilitation network and alliances.
